If you are anticipating that the SLERA submitted does not incorporate EPA's comments and is in potential violation of the UAO. I would limit the scope of the meeting to only discussing the SLERA. You do not want to muddy the waters with discussions on the removal. The removal really hinges on the AOC and the attorney's comments and not the technical people who are attending tomorrow.

Subject: Draft Agenda for Tomorrow's Meeting

Hi Gary –

I hope you had a good holiday. I am looking forward to our meeting tomorrow. It occurred to me that it might be helpful to have an agenda for our discussions, so attached is a quick draft that I put together. As you know, the primary focus of the meeting will be on the SLERA and the next eco-risk steps (Items 4 and 5 in the agenda). Items 1-3 are just included as brief background information. Please let me know if you have comments/revisions on this. I will bring copies to distribute at the meeting.

Thanks.
